# Calimax Sandor Pellet Stove

**Variable : Colours and casings**

A choice of casings is available:  
Steel: classic blue, red, black, silver  
Ceramic: 1 ruby red, 2 white

<b>Sandor technical specifications:</b>	<b>8 kW</b>	<b>10 kW</b>
Heat output:	2,4 – 8 kW	2,4 – 10 kW
Height:	1040 mm	1040 mm
Width:	580 mm	580 mm
Depth:	520 mm	520 mm
Weight, including metal casing:	130 kg	130 kg
Weight, including ceramic casing:	150 kg	150 kg
Room-heating capacity*:	bis 200 m <sup>3</sup>	bis 300 m <sup>3</sup>
Flue pipe connection:	Ø 100 mm	Ø 100 mm
Fuel capacity:	30 kg	30 kg
Burn duration**:	bis 60 Std.	bis 50 Std.
Efficiency (overall efficiency)***:	92,4%	91,4%
Efficiency (partial load)***:	93,9%	93,9%
Voltage rating:	~ 230 V / 50Hz	~ 230 V / 50Hz
Power consumption:	25 – 80 W	25 – 80 W
Room thermostat:	eingebaut	eingebaut
Ceramic ignition:	eingebaut	eingebaut

Permissible fuels: Low-dust wood pellets;  
ÖNORM M7135, DIN 51731, DIN Plus

\* Room-heating capacity varies with the quality of heat insulation and amount of ventilation.

\*\* Burn duration varies with heat output and quality of fuel.

\*\*\* Determined during bench testing.

Dimensional tolerances +/- 3mm. We reserve the right to make amendments.

Product subjected to type-approval testing TU Vienna(Austria), in accordance with  
ÖNORM: H3011, DIN 18891, EN 14785 and as per article 15a B-VG.

Living with warmth that does you good.  
For you and your environment.

## Calimax Sandor Pellet Stove

There is nothing like a real fire.  
And more and more people want to enjoy one.  
The Sandor pellet stove is designed to fulfil this wish.  
Heating with pellets uses tomorrow's technology to supply a real, traditional living fire – for now and well into the future.  
The Sandor pellet stove from Calimax.

Pellets: convenient and environment-friendly.

Sandor always offers a special atmosphere.

### **Classic: design**

With timeless beauty Sandor is also designed to be easy on the eye – as an elegant addition to your home.

### **Convenience: standby function**

A sensor system keeps the Sandor running at its preset temperature. When the pre-adjusted temperature is reached, the pellet stove switches off automatically.

### **High degree of efficiency: more than 90%**

The CO<sub>2</sub>-neutral combustion of pellets produces only minimal emissions – with a degree of efficiency of over 90%.

### **Maximum: safety**

The Sandor reacts automatically to anomalies in operation or excess flue pressure with an immediate shutdown.

### **Longlive: ignition**

The fast-acting high quality ceramic ignition system ensures a long service life and trouble-free functioning for the automatic start/stop function.

### **Possible: subsidies**

The installation of Calimax pellet stoves may be subsidized under certain circumstances. However, this does not depend on us, but rather on each user's local legislative and regulatory situation.

### **Optional: child-protection**

Even greater safety for children: The protective glass panel, which is available as an option, can also be fitted to existing units.

### **The natural solution: pellets**

If you heat with pellets, you care for the environment. This is because the burning of wooden pellets does not produce any increase in the level of CO<sub>2</sub> in the atmosphere. The warmth from Calimax pellet stoves thus benefits both people and their environment.

Natural wooden waste, such as shavings or sawdust, is pressed to form small cylindrical pellets. These wooden pellets contain no contaminants, such as adhesive or dyes. The lignin resin that occurs naturally in wood provides a binding agent.

### **More advantages: Sandor pellet stoves**

- Extra-large ashpan
- A choice of 6 different side panels
- The uniqueness of a real, living fire
- Integrated room-temperature control
- Child-safe door catch
- Large glass panel
- Easy operation

**The type: Roomheating**

**The process: air**  
(100% warm air / radiant heat)
